50X1

1. Following is the legend to the sketch on page 3:

- a. A new eight-story building, built in 1947 or 1948, which was occupied by the AVH. It covered a square block, was built of white stucco, and had a flat roof.
- b. The Ministry of Defense building, about 40x25x20m, was three stories tall, built of yellow stucco, and had a high-pitched gable roof.
- c. Another Ministry of Defense building, approximately 50x15x30m, was six or seven stories high. It was built of white stone and had a flat roof. This building was constructed in 1950 or 1951.
- d. Several former AVH buildings which now house passport and visa sections. These buildings are old, built of grey stucco, and are three to four stories high. Guards were observed at the main entrances of these buildings and also at their entrances on side streets. A guard was also observed at No. 60 Szatalin ut, the former headquarters of the Hungarian Fascist organization, NYILAS.
- e. An old grey building which housed the Budapest city police. This building was three stories high, located on a corner, and was about 15x15-20x15-20m.
- f. A white stucco five-story building which also housed the Budapest city police. This building, destroyed by fire during World War II, was reconstructed in 1953.
- g. The Ministry of Internal Affairs, a corner building approximately 20x20x20m, was five stories tall and was built of red and grey brick.
- h. The AMTI State Project Office, 40x15x18m, was a four-story, grey stucco and brick building with a high roof. Construction of this building was started about one year ago

CONFIDENTIAL

- 2 -

- i. The Hungarian Telegram Service (MTI), located on Naphegy utca. This building was a four or five-story building of gray stucco.
- j. The Ministry of Foreign Affairs, located at No. 11 Bem József Rakpart, was five stories tall and was built of brick and yellow stucco; its dimensions were 40x30x25m. There were bars on the windows of the first floor.
- k. Headquarters of the Hungarian Workers' Party was built in 1953; it measured 25x15x10m, was two stories tall, had a flat roof, and was constructed of white stone.

50X1

- l. A military caserne [redacted]
- m. The State Map Institute where military maps were made. The building was three or four stories tall and was an old building of dirty yellow stucco.

2. Following is the legend to the sketch on page 4:

- a. Sashegy, an area on top of a hill, which had some unidentified restricted installations.
- b. Hungarian Optical Works (Magyar Optikai Művek - MOM), located at Gábor utca and Nagy János utca, was constructed after World War II. It manufactured optical instruments and alarm clocks.
- c. The Architectural Scientific Institute (ETI) occupied two floors of a five-story, red brick corner building. Under the building, a passageway ran between two streets. This building, approximately 35x20x25m, had apartments and shops on the third, fourth, and fifth floors.
- d. Cable Factory (Kábelgyár) which employed between 300 and 400 workers. The factory manufactured trays, telephones, door handles, and phonograph discs of bakelite. The former manager of this factory was Bogoyev (fnu); the chief engineer was Géza Bernhart.
- e. Rock Engine Factory [redacted]
